

DEV BAKSHI

Web Developer | ASP.NET Core | Angular | SQL Server

Panchkula, India 134102 | +91 93501 68924 | devbakshi0524@gmail.com

PROFESSIONAL SUMMARY

Dedicated IT graduate and aspiring Web Developer with a calm, focused work style and strong attention to detail. Skilled in building full-stack web applications using ASP.NET Core MVC, Web API, Angular, and SQL Server. Quick to learn new technologies and committed to writing clean, structured, maintainable code.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Angular

Backend: C#, ASP.NET Core MVC, ASP.NET Core Web API, REST APIs, Entity Framework, Identity Framework

Database: Microsoft SQL Server (database design, stored procedures, maintenance)

Tools: Visual Studio, Visual Studio Code, Postman, Swagger, Git

EXPERIENCE

Industrial Trainee — CS Infotech, Sector 22-C, Chandigarh

July 2025 – December 2025

- Completed industrial training in full-stack web development using ASP.NET Core MVC, Web API, and SQL Server.
- Contributed to development tasks involving C#, Entity Framework, and RESTful API design.
- Collaborated with the development team to debug, test, and deploy application modules.

PROJECTS

E-Commerce Book Store — ASP.NET Core MVC

- Built an end-to-end e-commerce bookstore using ASP.NET Core MVC and Entity Framework.
- Implemented secure user authentication and role-based access using ASP.NET Identity Framework.
- Designed SQL Server tables and stored procedures to support product, order, and user data.
- Developed shopping cart, checkout flow, and secure login features.

National Park API — ASP.NET Core Web API

- Built a RESTful Web API in ASP.NET Core to manage National Park data with full CRUD operations.
- Designed normalized SQL Server schema and stored procedures for reliable data access.
- Implemented Add, Update, Delete, and View endpoints with clean, structured C# code.
- Validated API functionality and reliability using Postman and Swagger.
