PROFESSIONAL SUMMARY

ATS-friendly, detail-oriented Full Stack Developer with hands-on experience building and deploying production web applications using ASP.NET Core MVC, ASP.NET Core Web API, Angular, and SQL Server. Completed industrial training focused on end-to-end feature development, REST API design, and database architecture. Comfortable working across the full stack, from responsive UI to secure backend services, having independently deployed multiple live projects with cloud database integration (Azure SQL) and CI/CD-based hosting (GitHub Pages, Render). Quick learner, currently expanding into React.js and Node.js.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Angular, Responsive Web Design

Backend: C#, ASP.NET Core MVC, ASP.NET Core Web API, REST APIs, Entity Framework Core, Identity Framework, JWT Authentication

Database: Microsoft SQL Server, Azure SQL, Database Design, Stored Procedures

Tools & Platforms: Git, GitHub, GitHub Actions, Visual Studio, Visual Studio Code, Postman, Swagger, Render, Docker (basic)

Currently Learning: React.js, Node.js

EXPERIENCE

Industrial Trainee — CS Infotech, Sector 22-C, Chandigarh

Jul 2025 – Dec 2025

- Completed a 6-month hands-on industrial training in full stack web development using ASP.NET Core MVC, ASP.NET Core Web API, and SQL Server.
- Contributed to development tasks across 3+ live projects, involving C#, Entity Framework Core, and RESTful API design.
- Collaborated with the development team to debug, test, and deploy 10+ feature modules across multiple production releases.

PROJECTS

E-Commerce Book Store (MantraKart) — ASP.NET Core MVC

[Live Demo](#) | [GitHub](#)

- Built an end-to-end e-commerce platform using ASP.NET Core MVC, SQL Server, and Entity Framework.
- Established secure authentication and role-based access using ASP.NET Identity Framework, plus Google and Facebook OAuth login options.
- Integrated Stripe payment gateway, shopping cart, checkout flow, and an admin panel for product/order management.
- Deployed the application on Render with an Azure SQL database, resolving production issues around SMTP delivery, environment configuration, and build stability.

National Park REST API

[Frontend](#) | [Backend / Swagger](#)

- Designed and built a RESTful Web API in ASP.NET Core Web API with full CRUD operations for National Park data.
- Modeled a normalized SQL Server schema and used Entity Framework Core for data access.
- Implemented JWT authentication and documented endpoints with Swagger; validated functionality using Postman.
- Built a separate ASP.NET Core MVC frontend consuming the API server-to-server, deployed independently on Render.

Personal Portfolio Website

[Live Site](#)

- Designed and developed a fully responsive personal portfolio using HTML5, CSS3, and JavaScript.
- Developed smooth scroll animations, a mobile-friendly navigation menu, and a dynamic typing effect.
- Deployed and maintained via GitHub Pages with an automated GitHub Actions deployment workflow.

EDUCATION

Bachelor of Computer Applications (BCA) — 75.2%

2025

Maharaja Agrasen University, Baddi, Himachal Pradesh

Senior Secondary (Intermediate) — 75%

2022

Government Senior Secondary School, Pinjore, Panchkula

Matriculation — 72%

2020

Noble High School, Pinjore, Panchkula

LANGUAGES

English, Hindi, Punjabi
